DETAILED ACTION

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: In regards to independent claims 1 and 7, Justice (US patent 6299266) teaches a component mounting system for mounting a component within a casing, including a component support securable to said casing and a post fixedly attached to at least one spring member wherein the post is operable to be engaged in at least one recess in the component. Justice does not teach nor suggest a post moving device operable to engage and disengage a raised dome portion of said at least one spring member to thereby move and retain the at least one post in a selected one of said component engaging positioned and said non-engaging position. Furthermore there is no evidence in the prior art making obvious the proposed post moving device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
